

STAIRLIFTS & WHEELCHAIR LIFTS

CMAlifts Stairlifts

A solution for all needs and all stairs.

CMAlifts has always been sensitive to the needs of the individual, and it is in the front line to tackle all architectural barriers which, too often, limit freedom of movement, particularly in homes.

CMAlifts manufactures and supplies specific products, so that every building can become accessible by means of stairlifts and wheelchair lifts, whose finishes are also particularly well refined.

All products included in the CMAlifts catalogue, are Made in Italy and subject to strict quality control. Particular attention is paid to following the progression of the main technical standards, in order to ensure the right solution for individual user's requirements.

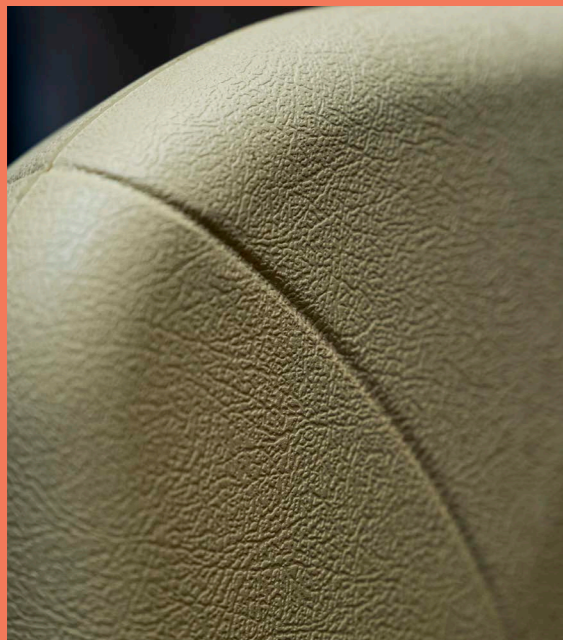

COMFORT

Thanks to the swivel control system, getting on and off the stairlift is easy and comfortable.

EASY TO USE

Thanks to the ergonomically designed toggle switch at the end of the arm, riding one of CMAlifts Stairlifts is simple, even for those with reduced mobility.

CUSTOMISATION

The seat and backrest of CMAlifts Stairlifts, with elegant fine stitching, have sophisticated aesthetics and offer a feeling of softness that adds to their ride comfort.

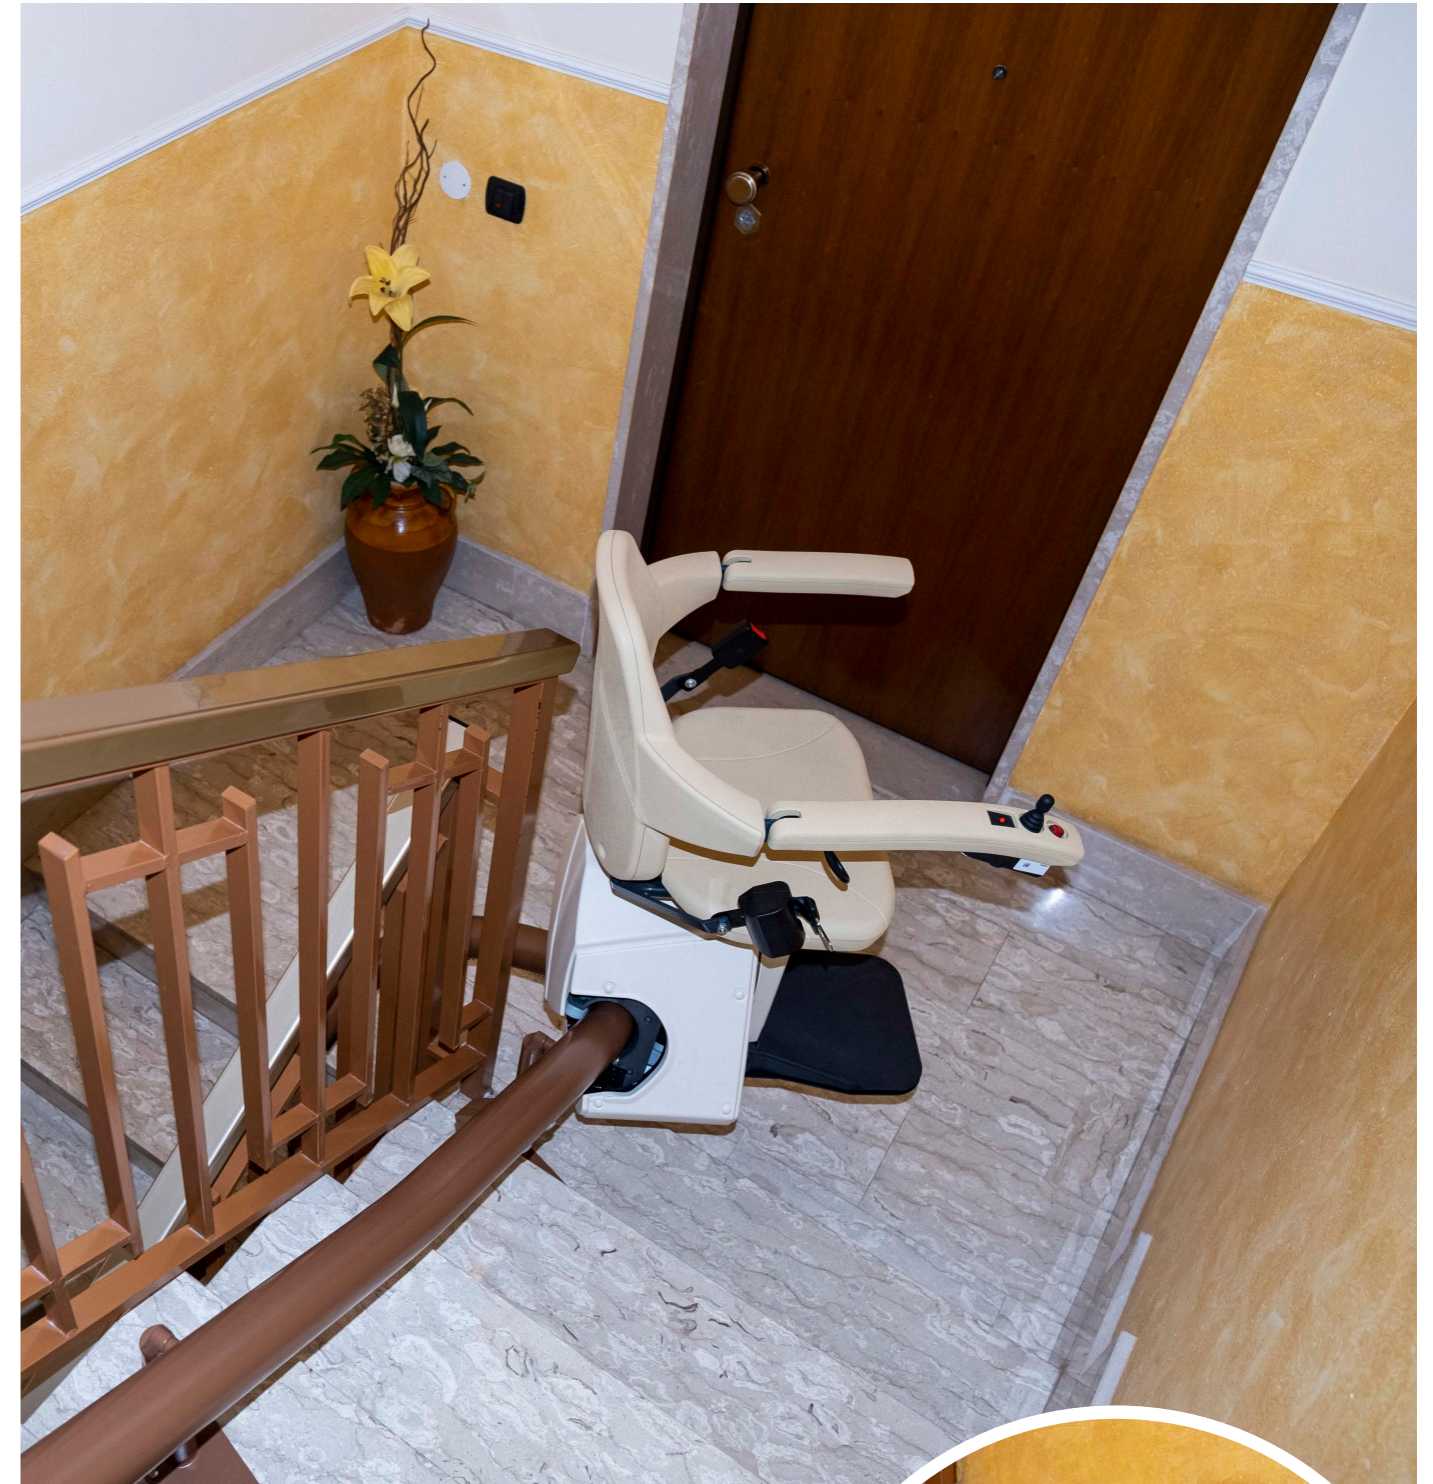

COMPACT AND FOLDABLE

The folding function makes the CMAlifts stairlift even more practical and convenient to have at home.

REMOTE CONTROL

CMAlifts Stairlifts' remote control is ergonomically designed to adapt to the user's hand and to be operated with ease, giving users total control over the stairlift.

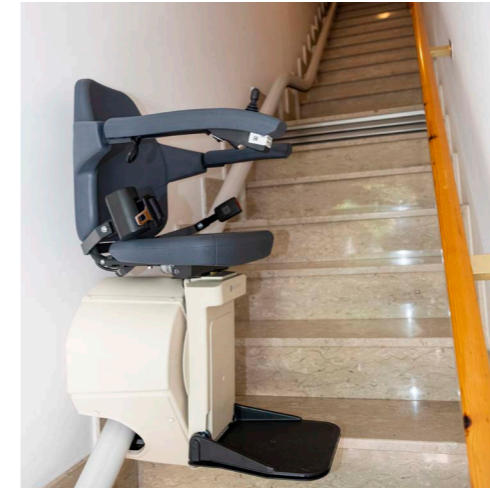

CMAlifts curved stairlifts are designed and manufactured to challenge the most difficult staircases, and have several standard functions creating convenience and accessibility to the user and their family members.

YOUR HOME ALLY

TECHNICAL FEATURES

EVERY CMA LIFTS STAIRLIFT COMPONENT IS DESIGNED TAKING ACCOUNT OF DIFFERENT USERS' DEMANDS. THE COMPACT AND COMFORTABLE SEAT AND SLIM SLIDING TRACK ALLOW FOR PLENTY OF ROOM ON THE STAIRCASE.

STEP 1

Thanks to the swivelling controls, getting on and off the stairlift is easy and comfortable.

STEP 2

CMAlifts Stairlifts are equipped with adjustable safety belts that guarantee additional safety and peace of mind for the user when sitting on the stairlift.

STEP 3

The digital diagnostic display, with clear, backlit text, allows easy understanding of CMAlifts Stairlifts, without having to interpret complex digital codes, beeps, flashing lights or other.

STEP 4

CMAlifts Stairlifts footrest is equipped with sensors that stop the stairlift in the presence of an obstacle on the staircase.

WHEELCHAIR LIFTS
PLATFORM STAIRLIFTS

CMA OFFERS CUSTOMISED AND TAILOR-MADE SOLUTIONS

CMAlifts Wheelchair Lifts are suitable for use in both private and public buildings, and comply with Law 13 of 09/01/89 and Ministerial Decree 236 of 14/06/89 on the removal of architectural barriers in condominiums, hotels, restaurants, bars, shops, offices, and other premises with public access, in the case of new building construction or modernisation. Law n. 13/'89 on tax relief, in Italy, provides government subsidies for the removal of architectural barriers in private buildings: 50% deduction on the works carried out for the removal and 4% VAT.

CMAlifts' twenty years' experience and careful design have resulted in CMAlifts Wheelchair Lifts, designed to meet the needs of users with reduced mobility. The platform stairlift allows the user to overcome straight and curved staircases, even with several flights of stairs, landings, and gradient variations.

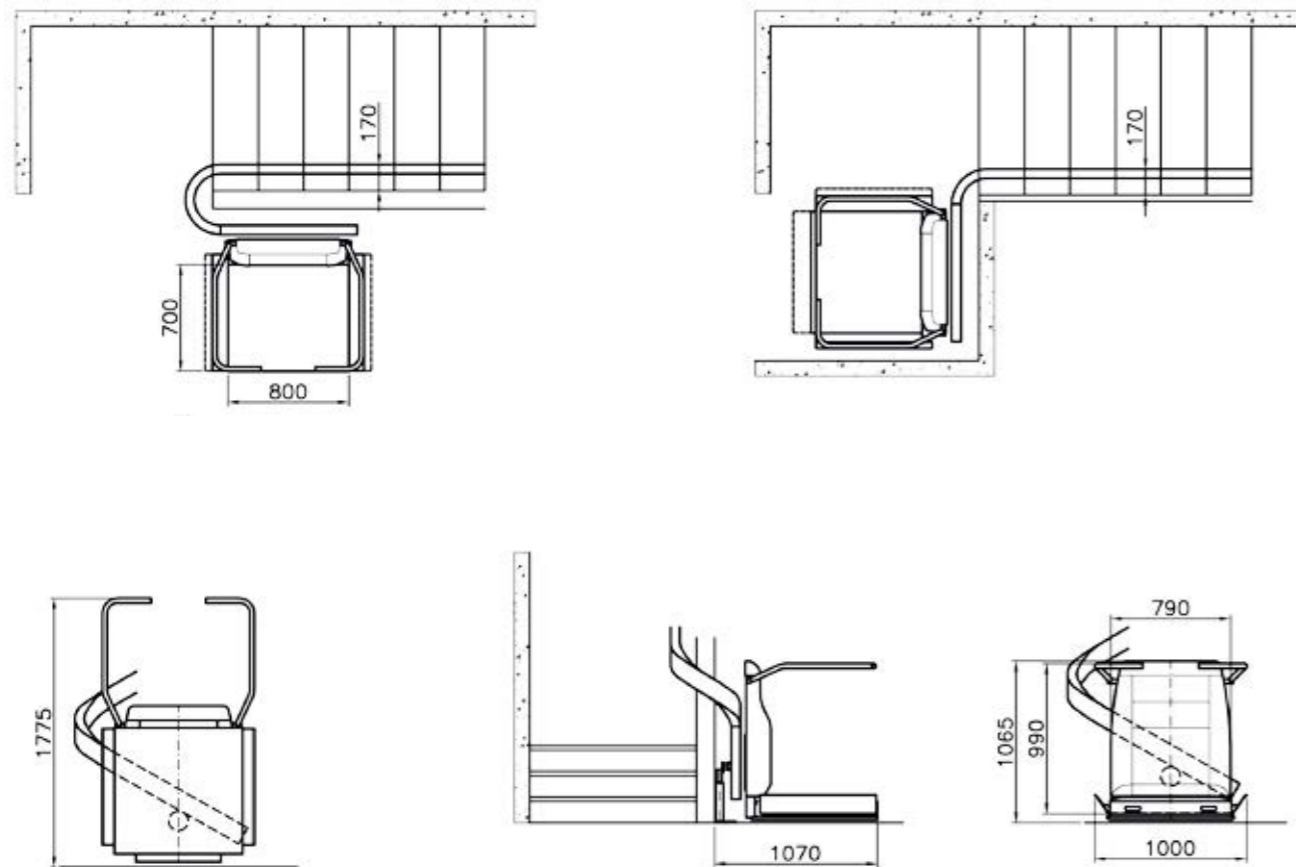

Simplicity and autonomy: CMAlifts Wheelchair Lifts are complete with all the accessories for easy operation by users: there is an on-board push-button panel with an extensible cable, which can also be used by an accompanying person. In addition, the platform, containment bars, and the landing access ramps are fully motorised, offering users independence and maximum comfort. An anti-blackout device guarantees the use of the wheelchair lift even in the event of a temporary power failure.

Innovative design and minimal overall size, thanks to the single

rail realised according to the conformation of the staircase, make it possible to achieve perfect harmony and integration within any environment. Another important detail is the quiet operation of the wheelchair lift. Specific surface finishes preserve the product from the action of atmospheric agents, making it suitable for outdoor use. The platform stairlift does not require any additional masonry work or installation permits and/or licences. CMAlifts Wheelchair Lifts are equipped with all the necessary devices to ensure maximum personal safety. Special finishes or accessories can be supplied on demand. CMAlifts' warranty over the above products is 24 months from delivery date.

TECHNICAL FEATURES

SPECIFICATIONS

- Capacity: 250 Kg up to 35° , 190 Kg from 36° to 40°
- Maximum speed: 6 m/min.
- Motorised foldable platform
- Two motorised guide rails with space-saving landing connection ramps
- Two motorised protection bars
- On-board control panel with extensible cable
- Remote-controlled landing operation panels not requiring connection to the wiring system
- 24 VDC power supply with on-board batteries, and built-in anti-blackout device
- 220V mains power supply - Maximum absorption 100W
- 24 VDC 600W self-braking motor
- Drive: by means of toothed pinion and irreversible gearbox on a rack fixed to the bottom of the rail.

- Safety gear activated by overspeed governor, in accordance with EN 81/40
- Anti-crushing, anti-shearing and anti-shock systems, in accordance with EN 81/40

CMAlifts was founded in January 2001, further to an ambitious idea by the brothers Messrs Giulio and Gaetano Caputo, with a mission centred on the model of an industrial company with a craftsman's heart, which manufactures homelifts, passenger lifts and elevators for civil and industrial use, focusing on customer care, product quality, personnel safety, and environmental safeguard.

It is an industrial manufacturer whose craftsman's heart has been retained to such an extent that it can mix the most futuristic hi-tech solutions with the creativity and excellence of its skilled workers.

CMAlifts' reference marketplace has no boundaries. Deeply rooted in the national Italian territory, CMAlifts is a leading player in Europe, North Africa, Middle-East and Australia. The constant increase in orders from foreign trades has been the result of a widespread presence at national and international trade fairs.

Strengthened by the experience gained over time, specific technical and design demands are assessed and addressed with extreme care and expertise. Solutions are shaped together with customers, with a working method that distinguishes each phase: order management, design, production, and on-site delivery by means of its own means of transport.
